Year 7 literacy and numeracy catch – up premium is a government initiative which provides schools with additional funding to support Year 7 pupils who did not achieve at least Level 4 in reading or maths at the end of Key Stage 2.

The whole ethos of Hope School and College lies within individual pupil progress through discrete challenging and progressive curriculum pathways.

Students are fully supported and guided by an experienced and motivational team of staff. All pupils have set individualised targets, which can be accessed via specialised resources and equipment to match their needs through a differentiated and bespoke curriculum pathway.

| Aim | Action | Success Criteria | Costings |

Staff Training and Development

Training is a predominant feature for all members of staff to ensure continuity and consistency of approach across all key stages through school and college. In-house training is delivered by practitioners and lead members of staff who have accessed external training and feed back to whole school. External providers are also part of the learning process either as practitioners (visual / sensory / behaviour) so that they can train staff through modelling strategies or as delivering a process for the school and college to themselves take on board and develop within the curriculum pathways.
